

gallery UG 1st anniversary exhibition
“sora” Kunihiro NOHARA

gallery UG is proud to announce that Tennoz gallery is celebrating its 1st anniversary in September. We would like to thank everyone who supported us all the time.

To commemorate this, we will hold a solo exhibition by Kunihiro NOHARA, our exclusive artist who has been working with us for over 13 years since he started his career.

This exhibition focuses on the collaboration works of contemporary art and traditional craftsmanship that the NOHARA has been working on for the past few years. In addition to the wood sculptures that are his main work, the Kanbun Kosode and Obi (the oldest hand-painted Kyoyuzen and Nishijin-ori) exhibited at the southeast corner turret of Nijo Castle in May this year will be shown. Also, the Omelet mantle, which is an iconic work of NOHARA, working with three lacquer craftsmen and gold leaf craftsmen, is a must-see.

Please come and see the craftsmanship meets NOHARA and its new direction.
